

IPRECON 2020

2020 IEEE International Power and Renewable Energy Conference

CALL FOR PAPERS

30th, 31st October and 1st November 2020

College of Engineering Karunagappally,
Kollam, Kerala, India

ABOUT

2020 IEEE International Power and Renewable Energy Conference (IPRECON) is an integrated crate for the young students and professionals all over the world to embed the technical quality. The conference emphasizes the international enviroment for sharing of knowledge in our domains, connect yourself to the industrial professionals and multi disciplinary discussion on the latest advances. The conference has session from over our diverse technical committees which cover the complete spectrum of industrial applications

Technical Papers are solicited on subjects pertaining to the scope of the conference that includes, but not limited to the topics

- Power Electronic converters and Control System
- Wide band gap devices
- Electric Machines and Drives
- Renewable Energy Resources
- Distributed Generation and Grid Interconnection
- Electric Vehicles
- Energy Storage and Battery Charging Techniques
- Power Quality Issues
- Microgrid and Smartgrid
- Lighting Technologies
- Energy Policies and Standards

HARD DEADLINE

05TH PAPER SUBMISSION
DEC 2019 OPENING DATE

31ST PAPER SUBMISSION
MAY 2020 CLOSING DATE
